**Industry Project**

Solve a real-world business problem by building AI tools

# Program Synopsis

GPU-Powered Platform Access

No Code Required

Industry Guidance

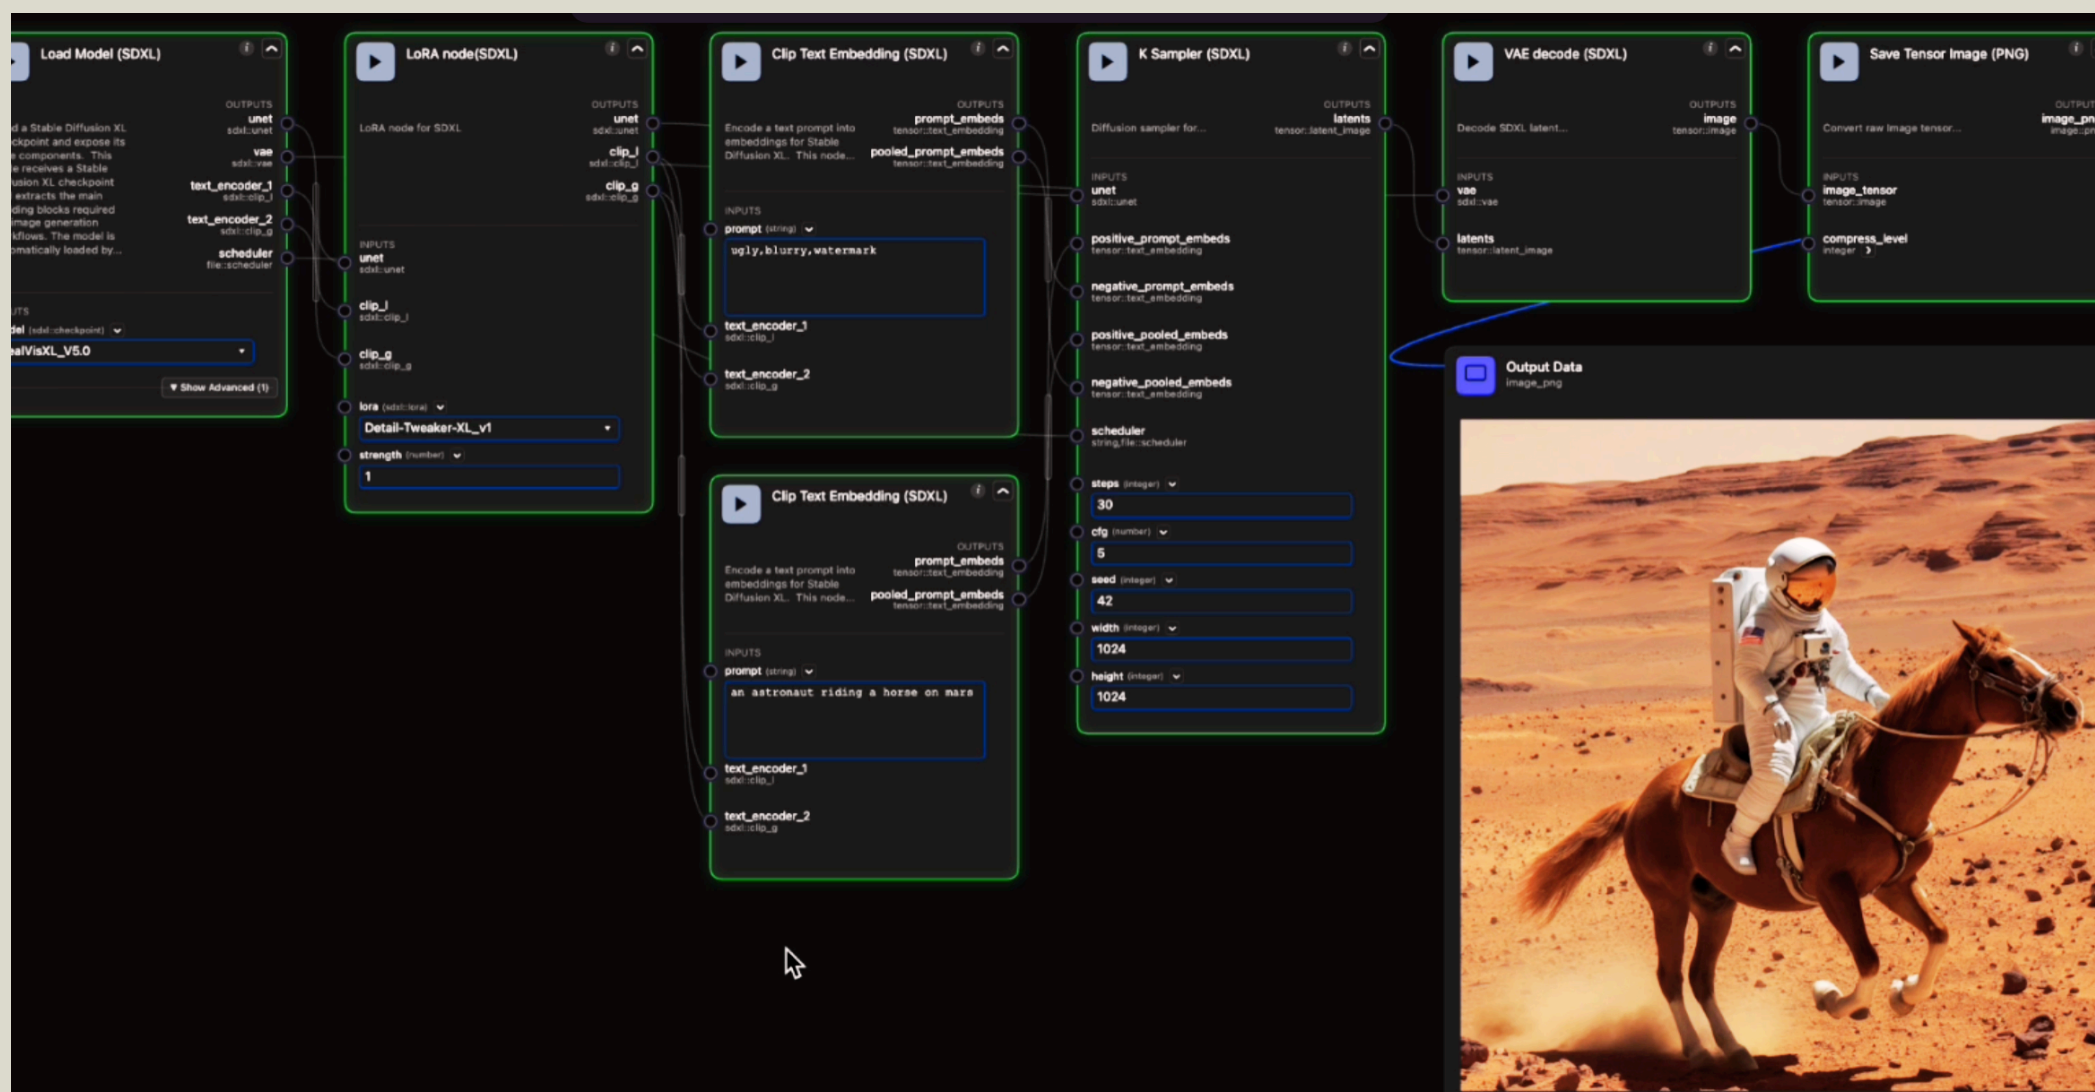

AI Marketplace

## Designed to Empower

GenAIus is India's first GPU-powered, no-code AI innovation lab. The platform provides hands-on access to the GenAIus lab, along with modularised, industry-aligned training led by global AI leaders.

## Own Your Future

No coding. No tech background. Just your ideas, powered by India's most advanced GPU innovation lab. Build, certify, and even sell your AI products to the world.

## WHAT'S IN THE PROGRAM:

- 6 months access to the GenAIus no-code AI lab, powered by NVIDIA GPUs
- 16 hours of live sessions conducted by AI experts from Europe, the UK, the USA and India
- LinkedIn Badge and AI-Ready Certification after successful completion of the program
- Webinars conducted by AI industry leaders, including UN Speakers
- Learn to build AI products using LLMs, computer vision models and many more as part of the modularised learning program
- Hands-on experience building agentic AI solutions for real-world business challenges
- AI skills for your academic field, any background welcome
- List and sell your AI product on the GenAIus marketplace
- Opportunity to earn a paid internship based on performance
- Eligible for the GenAIus AI Coaching and Grant Program worth ₹10,00,000
